UPGRADE NOTICE

Estate-a-Base Version 16.1D is now available for upgrade. This version contains the following fixes:

Selling Identical Shares – Sell multiple identical shares using the [OK] button, which has been reinserted into the **Identical Investments Available for Sale** box.

Choosing Another Accounting Period – In **Assets/Accounting > Reports** topic, the option to choose an accounting period other than the Current Period has been restored.

Moving among Topics – **Ctrl+Pg Up** and **Ctrl+Pg Down** moves the focus from topic to topic.

Unique Record Numbers – A message appears if you assign an existing record number to a new record. If the existing record has not been validated, you have the option of overwriting it; validated records cannot be overwritten.

How Do You Upgrade?

All users must log out of Estate-a-Base during the upgrade. Then the Default user goes to Configuration > Live Upgrade > [Check for Update] and follows the installation directions.

If you require further assistance, please contact Customer Service at 1.866.367.7648 or inquiries@doprocess.com.
